

# EP-RS232-PRO LED CONTROLLER

## EPIC'S ADVANCED RS232 CONTROLLER THE MOST POWERFUL IN THE MARKET TODAY

The EP-RS232-PRO LED Controller is a highly professional and intelligent system to control common anode LED lighting or incandescent light bulbs via 2-way RS232 serial commands. The EP-RS232-PRO provides 4 high current channel to create light scenes. The controller can also operate in a standalone mode which includes pre-programmed light sequences. This LED controller is ideal used for flexible ThinGlow™ LED strips. The EP-RS232-PRO LED Controller also operate independantly or integrated into a whole-house control system.

## USING CHROMATHERAPY IN YOUR HOME COMMERCIAL LIGHTING

Color changing lighting touches us on a very deep intuitive level. Whether you realize it or not, colors speak very loud to our subconscious and have a positive or negative reaction within 90 seconds. The lighting you select for a room will impact you on a very deep level every time you spend time in that room so consciously choosing the right color light for your home or office design with this in mind is very important.

Choosing a lighting scheme for the room you're decorating should take into consideration the people who will most frequently be in the room and what energy or feelings you may want to evoke or create in that atmosphere.

## THE HEALING POWER OF COLOR: CHROMATHERAPY

- RED:** Stimulating and exciting. Activates circulation and wakes up the senses.
- ORANGE:** Soothing and pain-relieving. Stimulates the respiratory system and soothes muscular pain.
- YELLOW:** Digestive and creative. Promotes digestion and increases brain activity.
- GREEN:** Calming and stabilizing. Relaxes the entire body and stabilizes emotions.
- BLUE:** Relaxing and soothing. Reduces blood pressure and stress and soothes the soul.
- VIOLET:** Immunizing and appeasing. Stimulates the immune system, detoxifies the body, and reduces anxiety.
